

COMPANY PROFILE

OUR VISION:

“To provide a Maximum sincere support and committed Hardware & Network solution to our clients and to explore ways to better our services With more value addition.”

ABOUT US:

PENTONIC TECHNOLOGIES was conceived by a group of young, Dynamic Technocrats in the year 1998.

The vision of the company at inception was clear. To carve a niche for itself in the crowded Computer Industry and provide complete customer satisfaction initially, the accent was on third party maintenance, support and LAN installations. Armed with the prestigious LAN expertise Engineers powered by zeal and ambition, PENTONICS was confident of delivering the goods. Within a span of year we acquired a Tremendous Reputation in the Market for Quality Service Support at affordable costs and Crossing a turnover of 6.3 Crores with a growth of 20 to 35% . Even today our response time to customer complaints is the fastest in the Industry.

The commitment and quality of the services provided by us has been much appreciated over the years and is very well known to leading IT companies.

In order to provide better value added services and explore possibilities of expanding our existing services.

Headed by a team of people with over 10 years of experience. The Company's growth has been solely due to the vast resources in providing customer support in various platforms. This too is indicated by the patronage received from most of the leading business firms.

TECHNOLOGY AND US:

Pentonic has sufficient knowledge base on New Products. However, it also has strategic alliances with many of the leading names in this domain of business, thus ensuring that the knowledge base is not limited to the direct availability of human resources. This has been an enabling factor to the success of the company. The wide availability of technological resources makes Pentonic a highly competent player in this market against some of the best in the industry.

Pentonic has been in the area of locating and establishing alliances with exceptional technical resources in a reactive as well as proactive role to meet the requirements of its clientele.

Pentonic went ahead with a massive expansion plans, offering a range of all Branded PC'S, Printers, Consumables, Scanners, Connectivity Products, Accessories, Networking services and Annual Maintenance Contract (CURRENTLY MAINTAINING AROUND 1200 PCs), What more.....?

TROUBLE SHOOTING - THE PENTONIC PROCESS:

- ❖ Committed time and accuracy
- ❖ Understanding the profile of the Clients
- ❖ Understanding the Requirements
- ❖ 100% Execution
- ❖ Feed back from clients
