Algolsoft Business Software Solution: Modules

1. The Heart of business: *Financial Accounting*

Algolsoft Financial System gives you a true & complete picture in the simplest possible manner of your finances. You need not be an expert at accounting.

2. The road to success: *Inventory Management*

We firmly believe that inventory management is most difficult task and yet the most important of all. Algolsoft helps you have a proper & simple system for inventory Management.

3. Better Control: *Sales Order Processing*

Hassle free invoicing, no need to see the order for rates or list of items or the codes, No excess or wrong item deliveries.

4. Manage your supplies: *Purchase Order Processing*

Better management of Inventory and orders placed, makes the tracking of undelivered material easy leading to smooth operations.

5. **No Emergencies: Excise Documentation**

Algolsoft converts difficult job to a routine. Completely hassle free submission of excise reports.

6. **The most tedious work becomes the easiest job: Invoicing / Billing**

Algolsoft improves the speed and accuracy of making invoices and helps in submitting bills on time. Can be used at fast retail counters to reduce mistakes and increase the efficiency.

7. **Material Accounting at its best : Job Work Processing (In & Out)**

Easy & simple way of tracking material (Quantity) given to Vendors for job-work OR received for job-work from your customers.

8. **Proper Planning is key to successful execution : Raw Material Planning**

Algolsoft makes it possible to plan ahead so no emergencies, no production stoppages and no losses.
