About Us :

Cozy Infosystems which is a well known name in the domain of IT enabled services, is a leading IT solution provider in USA and India. The company which is run by the veterans of IT industry was established in the year 2001 in USA and has been providing excellent IT services since its inception. Company started its operations in India with name of Cozy Infosystems Private Limited in the year 2007 with headquarters at Hyderabad. Cozy Infosystems is a team of very skilled & proficient IT professionals having rich industry experience from the major MNCs of USA. United with a motto to excel in this IT services and develop Cozy Infosystems as a renowned brand, our team is focused to provide quality services with a cost and time effective

process. Cozy Infosystems is a company with a different philosophy which always focuses on its efforts and quality of work rather than marketing or sales. A quality project delivery and client servicing are the two things which make the company reliable and thus gain the fruits of word of mouth publicity or viral marketing. With this ideology and system of operation we primarily focus to understand the demands & requirements of the client, which is the most crucial part of business because without proper understanding of the needs one can never meet the client's expectations.
