

### Hotel Management Software

River5 Property Management is complete software for Front Office, Restaurants, pubs, bars, etc, it helps you to computerize the entire front-office of a restaurant and help you manage your restaurant billing smoothly. It allows capturing of information from Kitchen Order Tickets (KOTs), classification of service by waiters, tables etc. Presents a graphical representation of the dining room with interactive table status. This feature streamlines the management of servers, tables, walk-ins, and arriving parties while managing the details necessary to impress guests at every point of contact.
