Magnetic Strip Reader Keyboard

## Jus' Key

## Jus' Display

Why crowd your valuable retail counter space with a keyboard and a separate Magnetic swipe Card Reader while you have both of them combined in one: Jus Key. The keyboard with a magnetic strip reader, it not only saves space but also stores all your customer details with a single swipe.

Ever thought of utilising those few moments your customer is at the billing counter? Well, Jus' Display is all about keeping them engaged and informed right there. A small but an impressive LCD display unit, it allows you to display messages on transactions and special offers.

### Features

- **Run your own loyalty programs:**  
Give smart cards to your customers and keep track of who buys what and when. So you know, exactly when to refill or resell.
